Grayson Johnsen

Oregon State University first-year student, interested in computer science, machine learning, and data science. Gained hands-on experience with Python, Bash scripting, Linux, and technical documentation during an internship at Siemens EDA. Seeking to further develop programming, data analysis, and problem-solving skills to pursue a career in technology.

JOB EXPERIENCE

Siemens EDA, BIG Team Member — *Intern*

Wilsonville, OR|July 2026 – August 2026

- Developed a Bash script to automate archiving older Grid software releases
- Converted a Bash script to Python with assistance from Copilot, gaining experience in AI-assisted programming.
- Worked with Linux command-line tools and virtual machine environments to complete technical assignments.
- Used Jira to track engineering tasks and Confluence to organize, transfer, and update technical documentation.

Dairy Queen, Beaverton — *Team Member*

Beaverton, OR|August 2025 – October 2025

- Provided customer service in a fast-paced food service environment.
- Handled cashier responsibilities and assisted customers with orders and questions.
- Worked collaboratively with team members during busy shifts to maintain efficiency and accuracy.
- Demonstrated reliability, communication, and time management in a high-pressure environment.

VOLUNTEER EXPERIENCE

THPRD, Beaverton — Volunteer

February 2025 - March 2025

- Led and guided younger campers through fun activities and bonding experiences, ensuring a safe, positive environment for all.
- Demonstrated leadership, communication, and teamwork while supporting camp activities.

EDUCATION

Oregon State University— Corvallis, OR

Bachelor of Science in Computer Science | Expected Graduation: June 2030

Mountainside High School, Beaverton — *Graduate*

(GPA) - 3.5/4.0 (Weighted)

Honors/Awards

- Honored in Engineering Award | 2024-2025 Mountainside High School
- Honored in Digital Filmmaking Award | 2023-2024 Mountainside
- Honors in Economics | 2023-2024 Mountainside High School
